PREPARING FOR YOUR EVENT

Stage Requirements: While we don't always perform on a "stage", we do require a minimum space of a 10 foot by 15 foot area when featuring the full band. Please ensure that the area is on even ground and free of potential hazards to dancing performers!

Weather: Because of the sensitive nature of the instruments, outdoor venues must provide a shaded break area for the musicians. Cover must be provided in the excess of 90 degrees or space heaters if below 58 degrees. In the case of rain at an uncovered outdoor venue, we will be unable to perform because of electrical hazards and the deposit will not be refunded.

Arrival at the Venue: In most cases, arrival at the venue is ideally 90 minutes or more before performance to assess the space, set up and perform necessary sound checks. Please inform the musicians if access to the space is not available or if there are any helpful details in regards to load in.

Amplification: Our Duos performing using a small 2-input amp which plugs in one microphone and an instrument. Larger ensembles may feature one or two Bose tower systems with multiple inputs. Please ensure that we have access to power for your event.

Tipping: It is a courtesy to tip your musicians when you are happy with their services and it is greatly appreciated. A tip can depend on the hours spent playing, or the number of musicians, but generally range about \$10 - \$20 a musician. If you prefer to leave it to the audience, please let us know if a tip jar is appropriate for your event.

Breaks: While it's true that we sometimes are having so much fun we forget, it is customary for the band to take a 10 minute break per every hour of music performed. Access to water is requested. If alcohol is being served, it is also customary for us to enjoy a pint or two- please let us know if you prefer abstinence for your event.
